

Make Ninja Turtles great again !

Make Ninja Turtles great again !

NinjaTT (TUT) Coin Whitepaper

The \$NinjaTT (TUT) Coin project is a cryptocurrency that pays homage to the beloved Ninja Turtles, iconic figures cherished by many fans. Our cryptocurrency holds no intrinsic value or financial return expectations, but it carries a significant charitable dimension. We are committed to donating a portion of the profits to organizations dedicated to the protection of turtles and their natural habitats.

Turtle Conservation Project:

Our project is geared towards the preservation and protection of endangered turtles worldwide. Our aim is to inspire love and admiration for these remarkable creatures while making a positive impact on their well-being.

We've created the \$NinjaTT (TUT) cryptocurrency and an exclusive NFT collection to raise awareness and support conservation efforts. We collaborate with renowned organizations to ensure tangible results.

AirDrops and Donations:

We're also introducing an AirDrops program to reward our contributors. By supporting our cause, you participate in turtle preservation while giving your business exposure. Each participant will enjoy exclusive visibility on our website and the chance to promote their products/services on our social media platforms for free during the airdrop time.

Advertising Project:

In addition to our dedication to turtle conservation, we're launching an exciting advertising project. You have the opportunity to promote your business by paying 2.600,000,000 NinjaTT coins. This offer includes a permanent advertisement on our website for one month and a Twitter post to reach a broader and engaged audience. This alternative allows you to contribute to our cause while gaining exclusive visibility for your business.

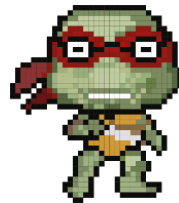

In the future, free distributions will come to an end. However, you can still promote your business by paying 2.600,000,000 NinjaTT coins. This offer includes a permanent advertisement on our website for one month and a Twitter post to reach a broader and engaged audience.

Tokenomics:

- Total Supply: 260,000,000,000,000 TUT
- **Token Allocation:**
- 💰 Added to Liquidity: 5%
- 💰 AirDrops: 5%
- ❤️ Charity Partnerships: 20%
- 📁 Marketing Wallet for Prize Pool and NFT Development/Partnerships: 10%
- 50% of the tokens have been added to the liquidity pool.
